

Insiders Know...

Before we even opened our new retail business in Odenton, we joined the West County Chamber of Commerce. Our Chamber membership has been instrumental to our success during these first 2-1/2 years. Claire Louder, CEO, and the Chamber staff have provided us a wonderful introduction to the West County area they serve. Prior to our opening, the Chamber helped us obtain considerable free press coverage from local media organizations, such as Patch, beginning with our Grand Opening and continuing to date. The Chamber's support has allowed us to network with many other west county businesses that we might not have otherwise encountered, and recently gained exposure for our store by hosting a successful Chamber mixer at our store.

As a new business we have benefited greatly from the support and guidance of the Chamber. The staff are always willing to share new marketing ideas to help us increase our sales and market presence. Our Chamber membership has been the best investment my partner and I have made in our fledgling business and we recommend it to everyone. Join today!

- Alexis Davis, Owner
